Food Parcel distribution

Food parcel distribution is still on going as an emergency response for those who are in a critical need of food and have limited or no ways of accessing it. To such people, Smile Charity Uganda is still reaching out with a parcels containing maize mill, rice, cooking oil, kidney beans, laundry soap, and many more essentials for daily living.

The food campaign has been going on for the past 90 days and has impacted our beneficiaries. Over 285 parcels have been distributed. All our sponsored children have been receiving and are still receiving a food parcel every after a month.

In the photograph aside are beneficiaries from the campaign.

Seeds of Love Community Park

This is a sister project and the supposed permanent location of Smile charity Uganda. Currently, the 2 acre land is not only a farm land for food crops supporting us on the ground but also a recreation ground for the community people. Young people from the neighboring communities have been gathering and working together in sorting and leveling the play ground.

Organized teams come to the park and play and enjoy one another every day evenings.
